## School Superintendent's Report

---

To the School Board and Citizens of Dummer:

Herewith is presented for your consideration my third annual report as superintendent of your schools together with a table of school statistics.

All schools of the town were in session for the legal year of thirty-six weeks.

During this year the Superintendent has made a total of 112 visits to the five schools, an average of about 22 visits per school. As in the previous year the work for the different grades has been outlined and adapted from the State Program and this work has been completed before advancement was made to the next upper grade.

Four schools were continued throughout the year with no change in teachers. In the fifth school where several changes were seemingly necessary, an exceptionally strong teacher was secured for the winter term and the pupils as a result were well advanced in their work at the close of the year.

The regular teachers employed during the year had all had some experience or special training for teaching at the State Summer Schools. Two of your teachers attended the Winter session for teachers at Whitefield thus manifesting an interest for improvement in their profession.

At the close of the year in June, eight pupils were graduated from the eight grades of different schools with public exercises at the Willis School. One of these eight is now taking a high school course.

During the summer vacation and early fall, the lighting and sanitary conditions of the Wight and Pontook schools were much improved, thus bringing the condition of the buildings nearer to standard.

During the summer an eye clinic was held for pupils, giving all whose eyesight might be thought defective an opportunity for free examination by a specialist. Considerable benefit was derived from this clinic.

During the past fall a State Test in Arithmetic and Spelling was given throughout the State to all eighth grade pupils. As the

## TOWN OF DUMMER, N. H.

eighth grade this year in Dummer is very small, this same test was given to six pupils of the Dummer seventh grade. The average rank for these six pupils was 62 in the Arithmetic and 81 in the Spelling. The average for the eighth grade throughout the State was 49 in the Arithmetic and 67 in the Spelling.

Respectfully submitted,

W. S. ADAMS.
